HKU Admission Talk and Student Sharing Session

(19 November 2026)

To deepen the Secondary Six students' understanding of university admission requirements, our school's Other Learning Experiences (OLE) Team and the Career and Life Planning Team collaborated to host an inter-disciplinary event – The 'University of Hong Kong (HKU) Admissions Talk' – on 19 November 2026 (Thursday). During the talk, a representative from HKU introduced general admissions information and addressed common student inquiries.

Following the seminar, HKU Student Ambassadors engaged with our students in small groups, sharing vital insights into the admission criteria of various faculties, the unique features of different programmes, and future career prospects for graduates. This face-to-face interaction allowed our students to gain a detailed understanding of the entry arrangements for the academic disciplines they are interested in, providing crucial information for making informed decisions regarding subject choices and future academic planning.

Students attentively listen to the speaker's introduction of different university programmes
