Visit to The Nethersole School of Nursing, The Chinese University of Hong Kong

(17 November 2026)

On 17 November 2026 (Tuesday), our school's Other Learning Experiences (OLE) Team, Career and Life Planning Team, and Biology Department collaborated to organise an interdisciplinary activity – a visit to The Nethersole School of Nursing, Faculty of Medicine, The Chinese University of Hong Kong (CUHK).

The Nethersole School of Nursing kindly made special arrangements to open its laboratories, allowing students to gain first-hand experience with the daily work of nurses, including basic clinical procedures, thereby acquiring a deeper understanding of the professional spirit and working environment of healthcare workers. Students were fully engaged, actively participating in all hands-on activities, which served as a crucial opportunity for them to reflect on their own career planning, ultimately enhancing their knowledge of the medical profession and laying a solid foundation for their future academic and career development.

Our students attentively listen to Professor CHENG Ho-yu,
Associate Professor of The Nethersole School of Nursing
and Assistant Dean (Alumni Affairs) of the Faculty of Medicine (CUHK) (1st right),
