N.T. Heung Yee Kuk Yuen Long District Secondary School

'AI for Empowering Learning and Teaching' Funding Programme
Budget Proposal
2026/27

Objectives:	Enhance science teachers' capacity in AI-assisted teaching by participating in professional development programmes and conducting trial lessons to promote pedagogical innovations and enhance students' learning effectiveness. Embrace the opportunities of the AI era and achieve the goal of "AI for ALL subjects", where teachers across all subjects effectively utilise AI to support teaching. Empower the education through technology and enhancing learning and teaching effectiveness.
Funding amount:	$500,000 HK dollars (2025/26 school year to the end of 2027/28 school year)
Ambit of the funding:	1. Subsidise students' participation in activities organised or recognised by the school that enhance their AI literacy and skills 2. Purchase/subscribe to/lease AI-assisted teaching tools or services developed under the QEF e-Learning Ancillary Facilities Programme (e-LAFP) and/or other institutions/programmes

Uses	Contents	Evaluation methods	Budget
Procuring software/ hardware/ platforms/ learning and teaching resources/ school-based AI application solutions	Procure relevant resources for implementing AI-assisted teaching in at least three subjects (each subject cover at least two levels)	➢ Teachers' observation and elaboration ➢ Students' performance ➢ Students' survey	$200,000
Subsidizing students' participation in AI education-related activities organized or recognized by the school	Host or arrange students to participate activities focusing on enhancing students' AI literacy and skills	➢ Teachers' observation and elaboration ➢ Students' performance ➢ Students' survey	$57,000
		Total estimated expenditure:	**$257,000**
