AI for Empowering Learning and Teaching Funding Programme

Financial Report 2025/26

Item	Date	Activity/Content	Students engaged	Evaluation	Expenditure
1	20.08.2026	Self-directed learning platform for speaking and writing (English Language) (offered by i-Learner)	S1-6 students	• By integrating AI speaking and writing programmes into English lessons, students became more confident, independent, and proficient users of English. • The technology provided personalised learning opportunities, immediate feedback, and increased practice opportunities, leading to measurable improvements in speaking fluency, writing quality, learner engagement, and self-directed learning skills.	$48,800
2	30.08.2026	Self-directed learning platform for writing (Chinese Language) (offered by Sayo AI)	S1-6 students	• Students' writing skills have been improved. • Students were guided through mind maps and structured frameworks before writing, while immediate feedback and corrections afterwards helped them gradually build confidence and competence. • Teachers can also use class reports to monitor students' learning progress and provide targeted follow-up support.	$48,500
				Total expenditure:	$97,300
				Amount of the fund:	$500,000
				Balance:	**$402,700**
