

The 22nd Statistical Project Competition for Secondary School Students

10 S6 students divided into two teams participated in the Statistical Project Competition (SPC) for Secondary School Students organized by the Hong Kong Statistical Society (HKSS) and the Education Bureau. Nancy Chan, Jane Lai, Michelle Lee, Eric Wong and Denis Wong, whose project is titled “天水「悲」城”, won the first prize, while William Chan, Alex Chau, Homan Lee, Peggy Tang and Neil Wong, whose project is titled “香港人口及住戶的變遷” won the second prize. The champion team was awarded a shield, a trophy, certificates and book coupons worth \$2500. The first-runner-up team was awarded a trophy, certificates and book coupons worth \$1500.

The SPC for Secondary School Students has been an annual event of the HKSS since 1986/1987. This year, the SPC has received 224 statistical projects from over one thousand participants. Our students were selected to enter the final round interview section and awarded the first and second prizes. Congratulations!
