

## Photography competition organized by the CYC

In order to cultivate students' civic awareness and sensitivity towards current issues, the Community Youth Club annually holds a photography competition for secondary and primary school students. This year, they made use of positive messages as themes including treasuring lives, staying away from drugs, protecting the environment and creating a brighter future to help youngsters develop positive values and attitudes towards life.

Our students actively participated in the competition and were awarded three awards. Yau Yuet Sing (S.3E) and Chu Kwok Ming (S.1E) were the Champion and the Second runner-up; Chan Sze Ying, Ip Hiu Tung and Leung Yin Fong (S.3E) received Merits Prizes. The awardees shared about how they became more aware of the details in life and more observant of things around them so that they could take a snapshot when the opportunity arose. They think it is a rewarding experience as they could not only learn the basic skills of photography but also learn how to reflect on issues related to the value of life and how to build a harmonious society.
