

Prefects Mainland Exchange Programme

Five of our S5 students participated in the Prefects Mainland Exchange Programme organised by the Education Bureau in December 2017.

During the five-day trip, participants visited institutions and museums in Beijing, such as Beijing Language and Culture University, Experimental School Affiliated to Haidian Teachers Training College, Juyong Pass of Great Wall, The Palace Museum, Beijing Air and Space Museum, China Science and Technology Museum and China Railway Museum. It was a valuable chance for students to learn more about the recent technological development in China and share their ideas with local students.
