

Admission Talk from The University of Hong Kong for S6 Students

It was our pleasure to have invited representatives from Admissions and Academic Liaison Office of The University of Hong Kong to give a talk about career and life planning for S6 students on 13 Oct 2017. In the talk, a lot of valuable admission information of The University of Hong Kong was provided for our students. After the talk, our students also joined the sharing sessions conducted by students who are currently studying in The University of Hong Kong. Some of the student tutors are also our alumni. All the students were much benefited from the talk and the sharing sessions.
