

Second Parents' Day 2023/24
(10 July 2024)

To enhance the cooperation between parents and teachers and promote the healthy growth of students in body, mind, and spirit, our school holds two Parents' Days each academic year. The Second Parents' Day in this school year was successfully held on 10 July 2024 (Wednesday) with all parents participating in the event.

On this occasion, parents came to the school to confer with teachers. For those parents who were unable to attend in person, teachers contacted them via video calls and phone calls to discuss students' academic performance and behavior. Through communication, teachers and parents sought to establish joint efforts to foster the growth and development of students in various aspects, promoting whole-person development.

To promote environmental conservation, the committee members of the Parent-Teacher Association collected and distributed used school uniforms to parents and students in need.

Ms. LAU Shuk-wa, class teacher, sincerely engages in discussions with parents regarding their children's academic progress and overall performance

Mr. LAI Fai-chun, class teacher, attentively engage in discussions with parents and students

The dual-class-teachers in S1, Mr. LEE Ka-ki (left) and Ms. FAN Kwai-ying (right), help parents gain a comprehensive understanding of their children's performance at school

Students from Class 3E draw pictures to welcome and thank parents

Reception team students warmly welcome parents

Students and their parents review the students' academic performance

Members of the Parent-Teacher Association discuss association affairs and await parents to come and collect eco-friendly school uniforms
