

Exploration Tour on Dongjiang Water Supply to Hong Kong
Sharing Session on Students' Learning Outcomes
(29 April 2025)

10 students from Secondary 2 to Secondary 4 participated in the 'Exploration Tour on Dongjiang Water Supply to Hong Kong - Sharing Session on Students' Learning Outcomes' organized by the Education Bureau at the Tsim Sha Tsui Cultural Centre on 29 April 2025 (Tuesday). After the field study activities of the Exploration Tour, students gained a deeper understanding of the history and current situation of Dongjiang water supply to Hong Kong, as well as the operation of the Dongjiang water system. Students consolidated their learning and reflected on their achievements. Moreover, students conducted a research project on quality testing of Dongjiang water.

During the sharing session, our students presented their findings to teachers and students from various secondary schools. Their presentation slides and the research project 'Quality testing of Dongjiang water' have also been published on the website of [Education Bureau](#) for sharing with the public.
