

Glutinous Rice Ball Workshop

(26 April 2025)

The Auxiliary Medical Service Cadet Corps N.T. Heung Yee Kuk Yuen Long District Secondary School Platoon held a Glutinous Rice Ball Workshop at our school's covered playground on 26th April 2025 (Saturday). Through this activity, students had the opportunity to promote traditional Chinese food culture while enhancing their hands-on skills and creativity. Participants learnt how to make glutinous rice balls and enjoyed their handmade treats with their families.

After the half-day activity, the cadets were excited and felt a great sense of fulfilment. They also got to taste the glutinous rice balls they had put their hearts into making.
