

Drone Rescue Challenge 2024/25

(14 May 2025)

2D LAU Yat-kiu, **2D YANG Zhi-jie** and **2C KE Liang** participated in Drone Rescue Challenge Competition, organized by 10Botics. They passed the preliminary simulator flight challenge, which consisted of four different missions, demonstrating strong programming skills. In the finals, the team successfully completed the missions by piloting a real drone. Their outstanding performance earned them two **Grand Prizes**, two **Second Prizes**, and one **Merit Award**.
