

## Smart Carbon-Conscious Consumption Quiz Competition Final (30 June 2025)

On 30 June 2025 (Monday), our team of junior students got the Champion in the final of the 2<sup>nd</sup> Smart Carbon-Conscious Consumption Quiz Competition Final, co-organised by the Consumer Council and the Education Bureau.

Through thorough preparation and consistent performance, our students became the **champion** in junior level after an intense round of quick-fire questions. The judges commended their outstanding performance. This event equipped students with skills to make informed consumption choices, embrace sustainable consumption practices, and foster their sense of personal and social responsibility.

Additionally, our school's cheering squad rooted for the team with homemade LED light banners and cheering sticks. They wholeheartedly supported their schoolmates and were awarded the **Best Cheering Award** (Junior Level).

Section	Award	Awardee
