

Study Tour To Germany and France

(26 June - 5 July 2025)

A 10-day Study Tour to Germany and France was organized for 30 S3 to S5 students from 26 June 2025 (Thursday) to 5 July 2025 (Saturday). Students were accompanied by our Assistant Principal, Mr. KWOK Wing-man, Mr. CHENG Wan-hung, Ms. LAU Shuk-wa as they visited Munich in Germany and Paris in France.

This study tour provides students with the opportunity to interact with locals, deepen their understanding of German, French and European history, culture, and the latest developments, and broaden their horizons, subsequently encouraging reflection on their personal identity and national history of our own country. They visited renowned historical sites and museums such as the Dachau Memorial, the Deutsches Museum, the Louvre, and the Palace of Versailles, while participating in cultural activities including enjoying opera performance. Through this transformative experience, students developed into culturally-sensitive global thinkers - individuals who confidently embrace their heritage while appreciating diverse perspectives. Ultimately, they emerge as ambassadors of cross-cultural understanding, honouring Chinese values while engaging meaningfully with the wider world.

Principal YUEN (front row 1st left) sees teachers and students off at the airport, wishing them a valuable learning experience

Overlooking Neuschwanstein Castle from Marienbrücke (Mary's Bridge), the view perfectly captures the harmony between the castle and its natural surroundings

Teachers and students at Neuschwanstein Castle

Teachers and students visiting the Deutsches Museum in Munich
