

Parents and Teachers Association Shenzhen Technology Exploration Family Study Tour
(15 November 2025)

On 15 November 2025 (Saturday), our school's Parents and Teachers Association Shenzhen Technology Exploration Family Study Tour was successfully held. More than 40 participants, including Principal YUEN, Assistant Principal Mr. KWOK Wing-man, Ms. YAU Hau-yin and Ms. LI Tsz-shan, as well as parents and students, joined the tour.

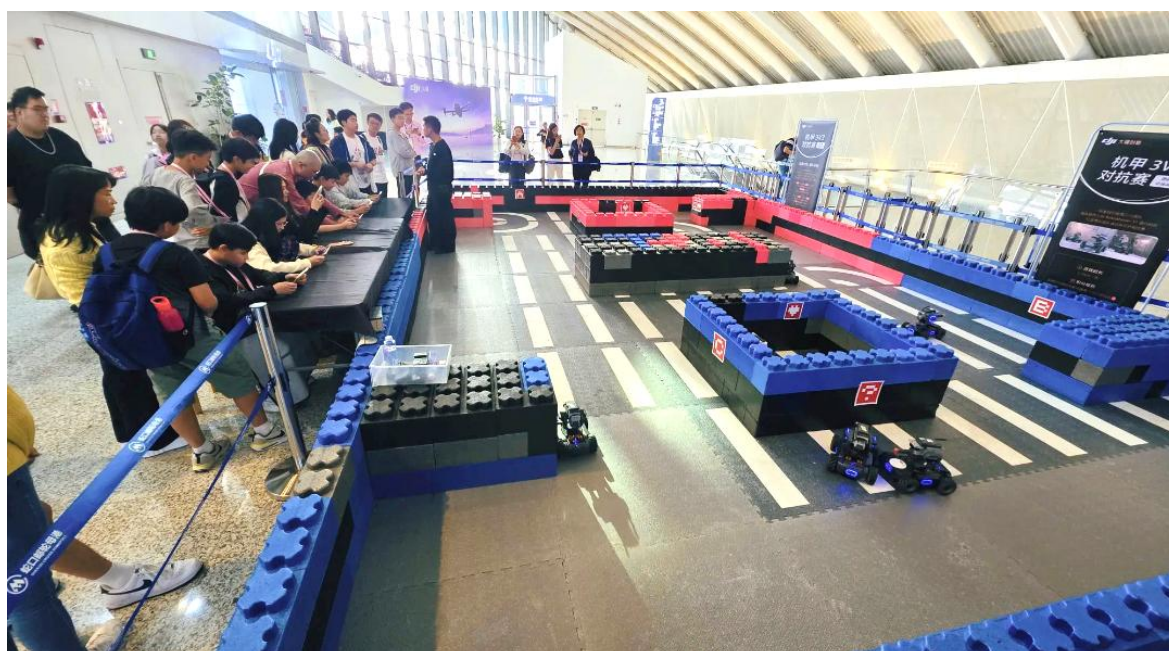

The group first visited the Shenzhen Science and Technology Museum to explore latest technology development. Following this, they visited the DJI Product Experience Center to learn about the development of drones and aerial photography technology. They also admired the well-preserved historical architecture at Nantou Ancient Town. In addition to this insightful study itinerary, participants enjoyed a Hakka-style banquet at a local restaurant. The subsequent lucky draw session further enhanced the joyful atmosphere. This study tour successfully strengthened parent-child relationship and enhanced communication between parents and the school.

Group photo taken in front of the Shenzhen Science and Technology Museum

Students actively explore the diverse exhibition halls, gaining advanced knowledge

Parents, teachers and students jointly experience a robot competition

Assistant Principal Mr. KWOK Wing-man (1st row 1st right) joins the competition, while parents and students cheer on, creating an exciting atmosphere

At noon, members enjoy an authentic traditional Hakka cuisine - Principal YUEN (back row 2nd left) and Assistant Principal Mr. KWOK Wing-man (back row 1st left) take photo with everyone at the restaurant

Members listen attentively to the tour guide's explanation of the architecture of Nantou Ancient Town
