

Save Water On Air Creative Radio Drama Competition
(13 July 2026)

Our students performed exceptionally in the Water Saving Ambassadors 2025/26 Save Water On Air Creative Radio Drama Competition, co-organised by the Water Supplies Department (WSD) and the Radio Television Hong Kong (RTHK). Our team, including **4A CHAU Yee-nok Esther**, **4D CHIU Tsz-yau**, **4D WANG Yau-yuet**, **4E LAU Jeanne-kieu**, **4E LIN Tsz-ki**, and **4E WANG Yu-run**, won **2nd Runner-up** in the Cantonese Category. The prize ceremony was held on 13 July 2026 (Monday).

Through this competition, secondary school students in Hong Kong have the opportunity to become ‘Water Saving Ambassadors’, using their creativity to spread water-saving awareness and foster a culture of sustainable water use within the community.

Our students were invited to RTHK to record their award-winning drama script with RTHK broadcasters Ms. Karen CHENG and Mr. Tony WU on 23 May 2026 (Saturday), with the programme being broadcasted on 27 July 2026 (Monday).
