

Maths Orientation

The annual Maths Orientation was successfully held on 7th May. Form 1 to 3 students actively participated in the activity by trying their best to solve all the difficult questions which required wisdom and physical strength. The last question was also the most challenging question of the competition. Participants had to convert the previous answer from number into letters and arrange those letters into names. Surprisingly, most participants could solve the questions. Students' performance was outstanding which proved that students are not only knowledgeable, but also physically strong.

數學遊蹤

一年一度的數學遊蹤比賽在5月7日(星期二)圓滿結束。一如以往，今次的比賽反應熱烈，中一至中三的同學非常投入。一聲令下，同學便急不及待衝出課室，直奔檢查點，然後趕去答問題。參賽者雖然跑得汗流浹背，氣喘吁吁，但仍毫不氣餒，全力以赴，解答所有難題。這個體力和智力兼重的比賽中最困難的題目莫過於最後一題，參賽者須將之前題目的答案由數字轉化為英文字母，然後再將字母排成終點的名字，可是不少參賽者居然能破解這道數學學會幹事精心設計的題目。同學們的比賽成績非常優異，可見鄉中同學不僅學識豐富，體能也非常良好。
