

'Teen Talk'

Our students participated in 'Teen Talk' which was organized by The Lawyers' Society of Hong Kong on 26th November 2011. Three videos about controversial current affairs were played in the activity. Students had to form groups to discuss on the videos played from the moral and legal perspectives. Our Students performed actively in the event. 'Teen talk' has not only deepened our students' concerns about current affairs, but also helped them develop a better understanding in the work of lawyers. Moreover, students have learned to view and analyze an incident from multiple angles. They benefited greatly from the event.
