

Our 2022 Graduates Admitted to Prestigious Universities of our Nation

(14, 25 & 28 July 2022)

Our 2022 graduates, 6E **CHENG Chun-wai** and **MA Yixuan** have been admitted to **Tsinghua University** whereas **LUI Ka-nam** has been admitted to **Peking University**.

Graduates	Program	Offer	Tertiary Institution
6E CHENG Chun-wai	Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions 2022/23	Undergraduate Programme in Economics and Finance, School of Economics and Management	Tsinghua University
6E MA Yixuan	Tsinghua University 2022 YAU Mathematical Sciences Talents Program	8-year Undergraduate-Doctor Programme in Mathematics & Applied Mathematics, Department of Mathematical Sciences	Tsinghua University
6E LUI Ka-nam	Peking University 2022 Boya Talents Training Program	Degree Programme in Computer Science, School of Electronic Engineering and Computer Science	Peking University

6E CHENG Chun-wai has participated in Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions 2022/23 and has been admitted to the undergraduate programme in Economics and Finance offered by the School of Economics and Management of Tsinghua University with remarkable results in 2022 HKDSE (5 subjects in level 5**; 3 subjects in level 5*). The Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions 2022/23 is equivalent to the "Admission of Hong Kong Students Taking the HKDSE Examination" programme implemented by the Ministry of Education since 2012/13, that aims at providing multi-pathways for the graduates of senior secondary schools and opportunities of connecting to the motherland.

Meanwhile 6E MA Yixuan has been admitted to the 8-year Undergraduate-Doctor Program in Mathematics and Applied Mathematics offered by the Department of Mathematical Sciences of Tsinghua University through the Tsinghua University 2022 YAU Mathematical Sciences Talents Program. The program aims to recruit students from all over the world who have excellent overall quality, great mathematical potentials and specialties for selection and training. From undergraduate training to doctoral level studies, the university is committed to cultivating future leaders in the fields of mathematical sciences in China and the world.

6E LUI Ka-nam has participated in the Peking University 2022 Boya Talents Training Program and has ultimately been admitted to the undergraduate programme in Computer Science offered by the School of Electronic Engineering and Computer Science of Peking University. With the approval of the Ministry of Education, the Peking University Boya Talents Training Program is launched to enhance educational exchange with Hong Kong, recruiting well-rounded Hong Kong secondary school students with brilliant qualities, outstanding academic performance, ambitious aspiration, great potential for further development, and strong sense of social responsibility.

6E CHENG Chun-wai has been admitted to Tsinghua University under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions in 2022/23

6E MA Yixuan has been admitted to the 8-year undergraduate-doctor program in Mathematics and Applied Mathematics offered by Tsinghua University

6E LUI Ka-nam has been admitted to the undergraduate programme in Computer Science offered by Peking University through the Peking University 2022 Boya Talents Training Program
